19. Disconnect the 2 coolant lines and vacuum line on the right side of the engine compartment.

WARNING: Servo oil is aggressive!

- **Possible danger of injury or damage (swollen hoses, skin irritation, danger of slipping, etc.)**

--> Before lines are opened, place a cloth underneath them!

--> Components that come into contact with servo oil must be cleaned IMMEDIATELY with water!

--> Take suitable protective measures (e. g. gloves, safety goggles, oil binding material)
